

FEDERAL INSTITUTE OF SCIENCE AND TECHNOLOGY (FISAT)TM

HORMIS NAGAR, MOOKKANNOOR, ANGAMALY-683577

FOCUS ON EXCELLENCE

20MCA133 WEB PROGRAMMING LAB

LABORATORY RECORD

Name: EMMANUEL JOSE

Branch: MASTER OF COMPUTER APPLICATIONS

Semester: 1 Batch: A Roll No: 56

University Registration Number: FIT21MCA-2056

MARCH 2022

FEDERAL INSTITUTE OF SCIENCE AND TECHNOLOGY (FISAT)™

HORMIS NAGAR, MOOKKANNOOR, ANGAMALY-683577

FOCUS ON EXCELLENCE

CERTIFICATE

This is to certify that this is a Bonafide record of the Practical work done by EMMANUEL JOSE (FIT21MCA-2056) in the 20MCA133 WEB PROGRAMMING LAB Laboratory towards the partial fulfilment for the award of the Master Of Computer Applications during the academic year 2021-2022.

Output

The screenshot shows a web browser window with three tabs: 'Program1', 'Assignment1', and '(no subject) - myself.emm...'. The main content area is titled 'Thrissur'. It contains a brief introduction about Thrissur, followed by a 'Contents from Wiki' section with links to Etymology, History, Geography, and Climate. Below this is a section titled 'Some images' featuring four photographs: a large crowd at a temple, a traditional Kerala-style temple, a temple during a festival, and an aerial view of a city with prominent white towers.

Thrissur

Thrissur is a city in the south Indian state of Kerala. It's known for sacred sites and colorful festivals. In the center is Vadakkumnathan Temple, dedicated to Lord Shiva and adorned with murals. The ornate, Indo-Gothic Our Lady of Dolours Basilica is nearby. To the north, Thiruvambady Temple is home to several elephants. Sakthan Thampuran Palace houses an archaeology museum with bronze statues and ancient coins.

<body width=500 align=center>
<p align=justify><b><i>Federal Institute of Science And Technology (FISAT)®
```

</i>is a private self financing Engineering College, established and run by the Federal Bank Officers Association Educational Society (FBOAES). The FBOAES is an initiative of the Federal Bank Officers Association (FBOA), the sole representative body of the entire officers of the Federal Bank.</p>

<p align=justify>Federal Institute of Science And Technology (FISAT) has a unique position in the Professional Education Sector in South India. With the motto "Focus on Excellence", FISAT has been designed and developed to become a `Centre of Excellence` in professional education. Established in the year 2002, the college has carved a niche for itself in education world, eloquently demonstrated by the flying colors attained by its students in academics, placements as well as extra curricular and co curricular activities. FISAT has embarked on an ambitious plan to enhance the quality and value of education and develop high quality individuals. The institution is accredited by NAAC with 'A' Grade. Five B.Tech branches are accredited by NBA. The institution also received the coveted ISO 9001:2015 certification.</p>

<p align=justify>FISAT is set up at Mookannoor, near Angamaly in Ernakulam District, Kerala, the birth place of the founder of The Federal Bank Ltd, Late K P Hormis. To honour the revered memory of the great visionary, the campus of FISAT is christened 'Hormis Nagar'.</p>

<p align=justify>FISAT is affiliated to Kerala Technological University (KTU), Mahatma Gandhi University, Kottayam, Kerala and approved by All India Council for Technical Education (AICTE), New Delhi.</p>

<p align=justify>FISAT conducts six B.Tech courses in Engineering, MBA programme (with specialization in Finance, Marketing, Human Resource Management, Information System, Production & Operations Management and International Business), MCA programme and six M.Tech courses.</p>

Output

This screenshot shows the same FISAT homepage as the previous one, but with a different content area. It displays a table titled "Courses Available in FISAT..." listing various undergraduate and postgraduate programs along with their duration and intake. To the right of the table, there is a sidebar containing the FISAT logo, a "Contact Us" button, and a search bar. The sidebar also includes a "Profile" section.

Course	Duration	Intake
B.Tech in Computer Science & Engineering (CSE)	4 Years	120
B.Tech in Electronics & Communication Engineering (ECE)	4 Years	120
B.Tech in Civil Engineering (CE)	4 Years	120
B.Tech in Mechanical Engineering (ME)	4 Years	120
Master of Computer Applications (MCA)	2 Years	120
Master of Business Administrations (MBA)	2 Years	120

This screenshot shows the FISAT homepage with a large central text area. The text provides detailed information about the college, mentioning its establishment by the Federal Bank Officers Association Educational Society (FBOAES), its accreditation by NAAC and NBA, and its ISO 9001:2015 certification. It also highlights the college's unique position in the professional education sector and its focus on excellence. The text notes that FISAT is set up at Mookamoor, near Angamaly in Ernakulam District, Kerala, and is affiliated with Kerala Technological University (KTU).

Experiment No:8

Aim: Create a HTML page to change the background color for every click of a button using JavaScript Event Handling.

Source code

```
<html>
<head>
<title>
Program 8
</title>
</head>

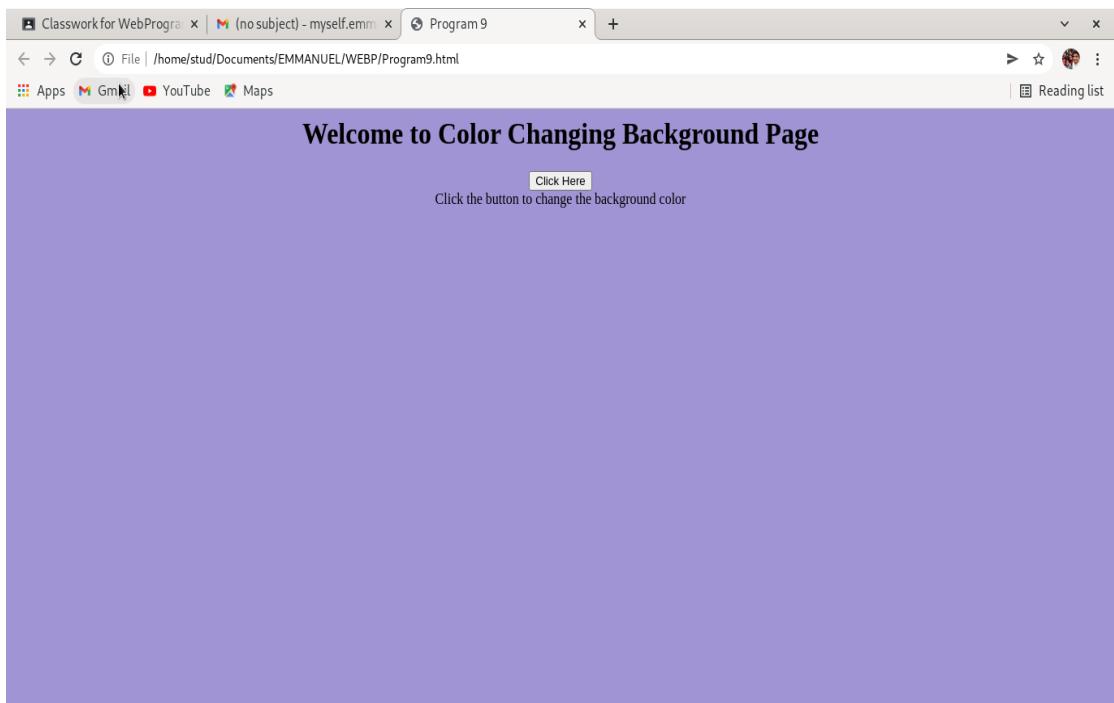

<body style = "text-align:center;">
<h1 style = "color:black;" >
Welcome to Color Changing Background Page
</h1>
<button type="button" id="color-button" onclick="changeBg()">Click Here </button>
<br>

<script>
document.writeln( "Click the button to change the background color"); const pageBody =
document.querySelector("body");

function changeBg()
{
let color = '#'+(Math.random()*0xFFFFFF<<0).toString(16);
pageBody.style.background = color;
}

</script>
</body>
</html>
```

Output

Experiment No:9

Aim: Generate the calendar using JavaScript code by getting the year and month from the user.

Source code

```
<!DOCTYPE HTML>

<html>

<head><title>Calendar</title>

<style>

table {

border-collapse: collapse;

}

td, th {

border: 1px solid black;

padding: 3px;

text-align: center;

}

th {

font-weight: bold;

background-color: #5ddedc;

}

</style></head>

<body>

<b>CALENDAR</b><br><br>

Enter The year : <input type="number" name="cal" id="cal" /><br><br>

Enter The Month: <input type="number" name="month" id="month" /><br><br>
```

```
<div id="calendar"></div>

<script>

var year = document.getElementById("cal").value;

var month = document.getElementById("month").value;

function getDay(date) {

let day = date.getDay();

if (day == 0) day = 7;

return day - 1;

}

function createCalendar(elem, year, month) {

let mon = month - 1;

let d = new Date(year, mon);

let table =

'<table><tr><th>MON</th><th>TUE</th><th>WED</th><th>THU</th><th>FRI</th><th>SAT</th><th>SUN</th></tr><tr>';

for (let i = 0; i < getDay(d); i++)

{

table += '<td>*</td>';

}

while (d.getMonth() == mon) {

table += '<td>' + d.getDate() + '</td>';

if (getDay(d) % 7 == 6) {

table += '</tr><tr>';

}

}
```

```
d.setDate(d.getDate() + 1);

}

if (getDay(d) != 0) {

for (let i = getDay(d); i < 7; i++) {

table += '<td>*</td>';

}

}

table += '</tr></table>';

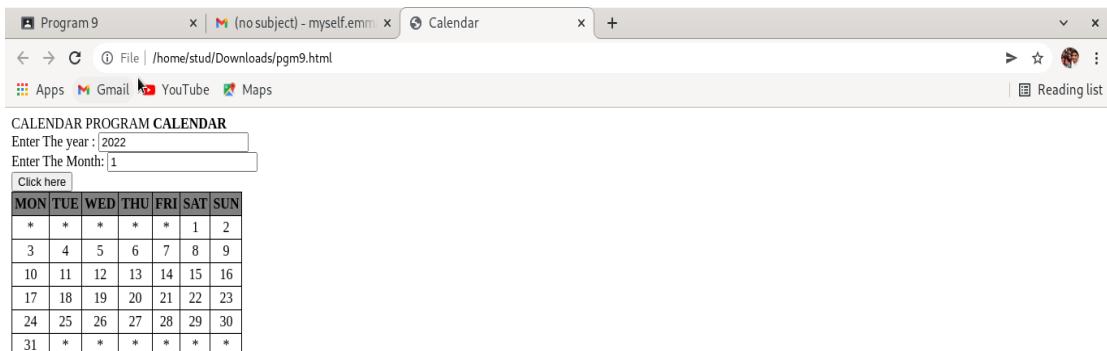

elem.innerHTML = table;

}

createCalendar(calendar, year, month);

</script></body></html>
```

Output

Experiment No:10

Aim: Compose Electricity bill from user input based on a given tariff using PHP.

Source code

Electricity.html

```
<html>

<head><title>Electricity bill</title></head>

<body>

<form name="bill" action="bill.php" method="post">

<h1>ELECTRICITY BILL<hr></h1>

Consumer Number: <input type="number" name="cno"><br><br>

Customer name: <input type="text" name="uname"><br><br>

Unit: <input type="number" name="unit"><br><br>

<input type="submit" value="Submit">

</form>

</body>

</html>
```

Bill.php

```
<html>

<head><title>Bill</title></head>

<body>

<h1>Electricity Bill</h1><br>

<table border="1">

<tr>
```

```
<td>

<h3>Name :<?php echo $_POST["uname"];?></h3><br>

</td>

</tr>

<tr>

<td>

<h3>Consumer number :<?php echo $_POST["cno"];?></h3><br>

</td>

</tr>

<tr>

<td>

<h3>Price/Unit :<?php $p=4; echo $p;?></h3><br>

</td>

</tr>

<tr>

<td>

<h3>Unit :<?php echo $_POST["unit"];?></h3><br>

</td>

</tr>

<tr>

<td>

<h3>Amount :<?php echo $_POST["unit"]*4;?></h3><br>

</td>

</tr>
```

```
</table>
```

```
</body>
```

```
</html>
```

Output

The screenshot shows a web browser window with the title bar "PHP - Calculate Electricity". The address bar displays "localhost/~stud/pgm10.php". The main content area is titled "Electricity Bill" and contains two input fields: one with "EMM242662" and another with "30". Below the inputs is a "Submit" button. A message at the bottom states "Total amount for 30 units - 765.00".

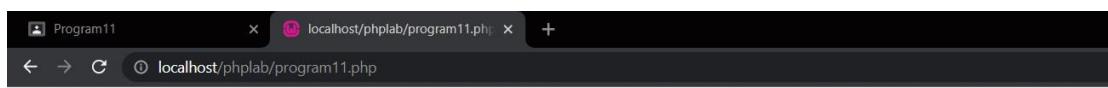

Experiment No:11

Aim: Build a PHP code to store name of students in an array and display it using print_r function. Sort and Display the same using asort & arsort functions.

Source code

```
<?php  
  
$stud=array("Amal","Arjun","Dhanik","Emelsha","Aleesha","Athira","Deepa","  
Akshay","Bivina"); echo "List of Students"; print_r($stud); echo "<br>"; echo "Reversed  
List:"; echo "<br>"; arsort($stud); print_r($stud); echo "<br>"; echo "Sorted List:"; echo  
"<br>"; asort($stud); print_r($stud);  
  
?>
```

Output

```
Program11      localhost/phplab/program11.php      +  
← → C   localhost/phplab/program11.php  
  
List of StudentsArray ( [0] => Amal [1] => Arjun [2] => Dhanik [3] => Emelsha [4] => Aleesha [5] => Athira [6] => Deepa [7] => Akshay [8] => Bivina )  
Reversed List:  
Array ( [3] => Emelsha [2] => Dhanik [6] => Deepa [8] => Bivina [5] => Athira [1] => Arjun [0] => Amal [4] => Aleesha [7] => Akshay )  
Sorted List:  
Array ( [7] => Akshay [4] => Aleesha [0] => Amal [1] => Arjun [5] => Athira [8] => Bivina [6] => Deepa [2] => Dhanik [3] => Emelsha )
```

Experiment No:12

Aim: Build a PHP code to store name of Indian Cricket players in an array and display the same in HTML table.

Source code

```
<!DOCTYPE html>

<html>

<body>

<?php

$Indcricketers= array("Virat Kohli", "M S Dhoni", "Rohit Sharma");

echo "Indian Cricketers: " . $Indcricketers[0] . ", " . $Indcricketers[1] .

" and " . $Indcricketers[2] . ".";

echo "<h3>INDIAN CRICKETERS</h3><table border='1'>

<tr>

<th>NO</th>

<th>NAMES</th>

</tr>

<tr>

<td>1</td>

<td>Virat Kohli</td>

</tr>

<tr>

<td>2</td>

<td>M S Dhoni</td>

</tr>

<tr>
```

```
<td>3</td>

<td>Rohit Sharma</td>

</tr>";

?>

</body>

</html>
```

Output

Indian Cricketers: Virat Kohli, M S Dhoni and Rohit Sharma.

INDIAN CRICKETERS

NO	NAMES
1	Virat Kohli
2	M S Dhoni
3	Rohit Sharma

Experiment No: 13

Aim: Using PHP and MySQL, develop a program to accept book information viz.
